March 21st, 1955.

Mr. Ron B. Schiller,
30 Park Avenue,
Avenel, New Jersey,
U. S. A.

Many thanks for your reception report on our DX of February 28th, 1955.

Your logging from 3.56 A.M to 4.16 A.M, Eastern Standard Time on 1280 kcs. checks with our Station log book.

For your information, we are enclosing herewith a copy of our pattern.

We are using a Gates transmitter BC5-B, Gates phasing equipment, with a 4-Tower array located at Laprairie, P.Q., 8 miles SW of the centre of Montreal.

At the time of DX broadcast our power was 4990 watts with an average modulation of 85%.

Sincerely,

Paul Leduc
